Something about Aroostook Lumbering Operations.

Arocatook.

For Kent is to have one of the biggest Fourth of July celebrations of the year. Its program includes fantastics, running, bleyele and other races, climbing greased pole, horse races, music by the Fort Kent Band and a ball in the evening.

The Presque Isle Star-Herald says: Several new passenger coaches for the Bangor & Aroostook railroad have arrived in Bangor. They are described as handson and well finished. We recommend any Aroostook man troubled with sore eyes to take a trip and look at them. If such a sight as the first new coaches for this long hoped for and much needed railroad, in their bright dress of palut and varnish, would not cure patients of that sort from this section, nothing would.

The Aroostook River lumber is now all in but about 7,000,000. This includes 5,500,000, Trafton's operation, 1,500,000 of Bearce's. The Fish River Lumber is reported to be going out in good shape, but considerable will be hung up on the Upper St. John waters. The season on the whole has been a hard one for the lumbermen.

The New hork correspondent of the Portland Argae who signs himself "I S expresses a firm belief in the guilt of Miss Borden and lays especial stress upon the fact that the sister of the accused has been absent from the court room during the trial. He writes "That means much The sister has an excellent reputation—if she believes Lizzie to be innocent, why is she not by her side in these awful hours? What does that sister know? This line of criticism is about on a par with a good deal of the evidence upon which the prosecution has relied to convict this woman-there is nothing in it The sister of the accused has not been in the court room for the excellent reason that she has not been permitted to hear the case in which she is an important w tness. As to the last question the answer appeared in the same edition of the Argus ontaining the communication from which we have quoted. That sister was on the witness stand Friday and her testimony, which could not be shaken in the least, was a flat contradict on of the sensational story told by the matron of the police station concerning an alleged quartel between the sisters. The theory of the prosecution has been shat ered and largely through its own witnesses. When this case goes to the jury we are of the opinion that it will not take that body long to do its duty. Then it won a seem to be in order to inves-

tigate the local police force in Fall River.

INTERNATIONAL DISPUTE About Ownership of Island off Maine. Court.

Washikoron, June 18. Prof. Medenhall, of the Coast and Geodetic survey, on the part of the United States, and Mr. hous, commissioner on the part of Great Britain, will shortly leave; Washington to determine the vexed question as to which country is the legal owner of Pope's Folly I land, near the waters of the boundary his between the United States and Canado, off the coast of Maine. The possessum of this island has been in dispute for the last century and now is in a fair way

Prof. Menden all has just discovered the Brat chart issued by Great Britain Harvard seniors at Appleton Chapel this showing the boundary line between the bited States and Canada, and gives the buited States and Canada, and gives the former country the island. A subsequent chart includes it in Canadian territory. The island is not valuable in time of peace but in time of war would be a decided advantage to the country possessing it. Prof. Mendenhall believes he will now have no trouble in settling the question in lavor of the United States.

Typographical Matters.

Chicago, June 17. The International Typographical Union to-day decided to publish the report of the recent investigation of the Childs-Drexel Horne, as so much of the proceedings had a ready become known. The investigation was conducted by President Prescott, of the International Union, in person. As a result of his investigation, it was found, t is eald, that the funds had been grossly misappropriated, that the home had not been built according to the specifications and that at present the building is in such: condition that it is liable to collapse. A meeting of the Delug: Hose Company is to be held, this evening, to see if the companies of Bucksport, on July Fourth, for the \$40 purse offered by Mr. Christ Toole, of Bangor.

The High School junior base ball nine played the Hampden Academy boys at Rollius? Park Saturday afternoon and were defeated by a score of 24 to 4. There was loose playing on both sides, it was said, and the Brewer oys claim that the umpire rather favored their opponents.

The trouble with the e petric lamp on the corner of Penobscot square, still continues and clitzens are beginning to wonder if the company is evel going to remedy the clifficulty. For a long time its being lighted during the night has been as matter of great uncertainty and for a good part of the time the squard has been dark. It is one of the most in ortant of the street lights and should be kept burning.

The Segeunkednik Hose Company, as an anasteur organization of South Brewer, has received and accepted an invitation to attend and participate in the celebration and races at Ellsworth, Ponrth of July. The members have already begun practice for the racing. AN AWFUL TRAGEDY!
Thousands of lives have been sacrificed, thousands of homes made desolate by the fatal mistake of the "old-school" physi-cians, still persisted in by some, notwith-standing the light thrown upon the subcians, still persisted in by some, notwith-standing the light thrown upon the sub-ject by modern research, that Consump-tion is incurable. It is not. Consump-tion is a scrofulous disease of the lungs, and any remedy which strikes right at the seat of the complaint must and will cure it. Such a remedy is Dr. Pierce's Golden Medical Discovery. It is a certain specific for all scrofulous complaints. It was neve known to fall if given a fair trial, and that is why the manufacturers sell it under a positive guarantee that if it does not benefit or cure, the money paid for it will be refunded.
